American River Flood Control District CA CVFPB Encroachment Permit – Woodlake Subsurface Explorations Staff Report

Discussion:

Sacramento County Regional Parks submitted an encroachment permit application to perform geotechnical borings and test pits to evaluate the soil parameters at the location of new proposed Parkway features. County Parks will use the data obtained from the tests to design footings for a new bridge and boat ramp facility. These proposed features will be submitted for encroachment permitting after they have been designed.

Recommendation:

The General Manager recommends that the Board of Trustees endorse the permit application for the Woodlake Subsurface Explorations.

APPLICATION FOR A CENTRAL VALLEY FLOOD PROTECTION BOARD ENCROACHMENT PERMIT

			·		(For Office Use Only)	
1.	Description of	of proposed work being spe	ecific to include	all items that will be co	overed under the issued permit.
