

General Manager's Meeting Summary

October 2024

10/3: Ueda Parkway meeting. I attended this meeting to discuss the site conditions and management of the Ueda Parkway. Representatives from City and County law enforcement, the CHP, City Department of Community Response, RD 1000, and the River City Waterway Alliance were present to discuss their role in the management of human activity within the North Area creeks and streams.

10/9: City of Sacramento 2024 Highwater Jamboree Planning meeting. I met with staff from the City and partner agencies to discuss this year's Highwater Jamboree. The event will be held at the N. Natomas Regional Park on October 19th.

10/9: City of Sacramento Sutter's Landing ADA Trail meeting. I met with staff and consultants from City Parks and the State Central Valley Flood Protection Board to discuss the City's plans to add ADA access to the American River at the Sutter's Landing Trailhead.

10/10: Arcade Creek Neighbor Site-visit. I met with a resident along the south levee of Arcade Creek to discuss management of vegetation within the floodway.

10/11: American River Flood Control District Board of Trustees meeting. The Board met in regular session. The agenda items consisted of routine financial reports, staff reports and the Bi-annual Ethics Training.

10/17: US Army Corps of Engineers Piezometer Program meeting. I attended this meeting to discuss the USACE's plan to install piezometers at various locations throughout the levee system. It was unclear if the USACE was installing the sensors to measure the effectiveness of the seepage remediation projects they have constructed over the last 25 years or if they were installing them to turn over to the non-federal sponsors to monitor future seepage conditions. A future meeting will expand on that discussion.

10/19: City of Sacramento 2024 Highwater Jamboree. I staffed the District table at this year's Highwater Jamboree and was assisted by Trustee L'Ecluse. We talked to many residents about our role in local flood control and handed out copies of the Sacramento Flood History Journal to interested participants.

10/21: SAFCA Flood Coordination meeting. I met with staff from SAFCA, the City Department of Utilities, and the County of Sacramento Department of Water Resources to discuss FEMA certification, ULDC certification, and Hydraulic and Hydrology studies for South Sacramento.
