

American River Flood Control District

Designation of Surplus Equipment

Staff Report

Discussion:

District staff seeks to designate as surplus various pieces of equipment that have reached the end of their serviceable life. The disposal of these items will free up valuable space in the warehouse and make room for replacement items.

2005 Dodge Pickup Truck – This truck has served as the District Spray Truck. It has seen rigorous use and is becoming unreliable and deteriorated. Staff plans to convert an existing 2012 Ford Utility Truck into a new Spray Truck so the '05 Dodge can be sold as surplus.

2012 Scelzi Utility Body – This utility body was used on an existing 2012 Ford which will now be converted into a Spray Truck. Therefore the Scelzi Utility Body can be removed from the Ford and sold as surplus.

Recommendation:

The General Manager recommends that the Board of Trustees designate the 2005 Dodge and the 2012 Scelzi Utility Body as surplus and direct staff to sell or dispose of the equipment per the guidelines in the Surplus Equipment Policy.
